Tree project fact sheet

1. Watch and read:

Inform yourself in books or even from online sources!

Which sources did you use?

2. Discuss:

Talk about a forest or tree you know. What is special about it?

How would we like our forests to look in the future? What can we do to help get there?

3. Investigate:

Chose a forest or a tree, and find it on a Kenyan map, or draw the map and please mark the tree or forest there. Draw a little map where you found it, here or on the back of this page! How far is it from your home? What is the typical habitat where you can find it?

Tree project fact sheet

4. Explore:

Go to your forest or tree and explore it! What can you see, hear, smell, and feel? What animals, insects, birds and plant can you find there?

5. Interview an Expert:

Interview someone in your house or community who knows about trees!

6. Create:

Draw a picture of the tree or forest of your choice, include the people and animals that use the tree!

Can you make a piece of art from things you find in a forest or the tree near you!

Draw on the back of this page or use a extra loose paper!
